e-mail:admin@longma.co.uk web:www.longma.co.uk

For the last 5 years Longma has been collecting used oil to recycle into green electricity in its Hereford power generation plant. We now need to focus our business on our research and development, and power generation technology activities. We have therefore agreed to transfer our oil collection activities to Pelican Food Services. Pelican will become our oil supply partner, therefore your oil will continue to be recycled by us into green electricity.

The transfer started from 1st February, and will be completed by the end of the month. This will be our last visit to you.

Pelican has a wealth of experience in oil collection and food services. Apart from collecting oil, they supply fresh cooking oil and ambient food products, as well as a range of good quality janitorial products. You will therefore benefit from their greater product offering, as well as increased frequency of service if necessary. I have taken the liberty of including some of their literature.

Pelican will provide the same used oil collection service as Longma, and you need do nothing different. Title of containers will be transferred to Pelican. If you have paid a container deposit and kept the receipt, the future refund will be handled by Pelican should you stop the service.

If you have any questions regarding the transfer, please contact us before 28th February. Alternatively, you can contact Pelican directly on 01299 827444 or visit the Pelican web site: www.wasteoil.co.uk.

We would like to take this opportunity to thank you for your continuing support.

**For all future oil collection
requests, please contact
Pelican Food Services on
